(Curated by Bernard Akoi-Jackson)

Biography

Simon Bowman Junior was born in Accra, Ghana in 1989. He holds a Bachelor of fine Art degree from Kwame Nkrumah University of Science and Technology (KNUST), Kumasi.

Bowman has always been fascinated by Photography. The interest was cultivated through his teenage years and further developed when he took a bachelors degree in fine Art. After completing his degree, he delved more into his photographic practice which involved experimenting with Analogue darkroom photographic chemistry; manipulating chemicals, materials, techniques and processes to see where its functional and breaking points are. Thus pushing photography past documentation into abstraction.

His works have been exhibited in solo and group shows; this is Us - Old Tech Sec, Kwame Nkrumah University of Science and Technology, Kumasi (2016); "Cornfields in Accra", Museum of Science and Technology, Accra (2016);

"Orderly Disorderly", Museum of Science and Technology, Accra (2017).

He was a finalist at the 2018 Kuenyehia Art Prize for contemporary Ghanaian Art.

Bowman jnr lives and works in Accra, Ghana.
