

Accordion Hinge Book Workshop

Fri Sept. 18

Sat Sept. 19

**Choose either day
11am - 2:30pm**

**At the Studio of
Cynthia McGuirl
36 Two Fox Farm Drive
Thomaston, Maine**

Learn how to attach pages using a kozo hinge. You can make accordion and sculptural books with this technique. The hinge moves in both directions and is especially suitable for heavier papers. The process includes techniques such as accurate cutting, measuring and gluing. Quality precut papers and kozo strips will be provided. Each student will make a sample trifold book. We will learn hinging, edge binding, doors and windows. If you took my spring course, you can make the Pyramid Book (on right above). It folds flat and has a kozo tab to hold it's sculptural shape. As time allows, students can use collage and writing to complete their books. Students will go home with instructions for making and figuring their own books. Bring a bag lunch.

The cost is **\$60.** (includes \$10. materials fee)

Limited to 8 students
