I also overhauled all printmaking sinks and plumbing, improving the facilities in a way that serves the printmaking program curriculum and students' needs. I have also managed budgets and inventories for the printmaking area. I work with student workers to maintain the print studios, maintaining the printmaking studio organized and highly functional. In addition, I founded a fully functioning printmaking studio in Seoul and designed the entire studio space and environment, managing the print shop, supplies, and budget, and developing the workshop programs.
