

Small Print Pricing

These prints are 8x10 silver gelatin photographs made in the exact process as my larger prints. They are matted to 11x14 in Crescent Select conservation grade mat board and backer board for archival permanence. You can purchase one of any of my images displayed on my website for \$55 each which includes tax and shipping, or you may select 3 different images and get the set for \$130 total. You can find an 11x14 frame locally or display them on an easel.

I also offer this size with a premium Nielsen metal frame (matt black only) and glass for \$110 each or 3 for \$275 which includes tax and shipping costs. Framed prints are wired and ready to hang. Below is an example of what a framed trio might look like (as close as the digital world can replicate).

Again, you can chose *any* print from the website to be either matted or matted and framed. Please email me with any questions: schrollphoto@gmail.com.
