

Virtual Art Show Special (aka. The Flip Bin)

These prints are 8x10 silver gelatin photographs made in the exact process and paper as my larger prints. They are matted to 11x14 in Crescent Select conservation grade mat board and backer board for archival permanence. You can purchase one of any image on my website for \$55 which includes tax and shipping or buy three for \$120. You can find an 11x14 frame locally or leave them matted on an easel.

I also offer this size with a premium Nielson metal frame (matt black only) and glass for \$100 each or 3 for \$250 which includes tax and shipping costs. Framed prints are wired and ready to hang. Below is an example of what a framed trio would look like (as close as the digital world will let me). Credit Card, PayPal, or Personal Check (must clear first).

Again, you can chose *any* print from this website to be either matted or matted and framed.
