

# QUARANTINE COLORING BOOK

## MY HOUSEPLANTS

By Brett Day Windham

Here are drawings of my house plants that nobody asked for. There are more of them, but they didn't make the cut. I know you have a lot to do, but I hope you will color them, paint them, crayon them, laugh at them, cut them up, add googly eyes, add collage, turn them into aliens, draw on top of them, put stickers on them, take them outside for some fresh air, and generally have fun.

I love you.
