teaching experience

2017-2018

Guest Professor, Alberta College of Art and Design, Calgary, Alberta, Canada

- **Advanced Studio Practice for Potters Wheel:** Course curriculum includes lectures on process, historic ceramic traditions, and contemporary ceramic art practice. Assignments where proposals for specific function designed production, and a presentation of source materials informing their specific function body of work. Materials and firing process specific to each student's design and specific practice. Techniques include throwing in sections, moveable slum mold techniques, coil throwing construction, plates, platters, covered boxes, centering 25lbs of clay, and bulk glaze color mixing.
- **Seminar:** Curriculum investigates critical craft readings and practice, professional development of student materials and thesis writing with MLA citation.
- **Fundamentals of Ceramic Art:** Course curriculum includes lectures on process, historic ceramic traditions, architectural ceramics, and contemporary ceramic art practice. Materials and firing process included low fire and high fire clay, glazes, under-glazes, oxides, commercial glazes, electric and gas firings. Techniques include pinching, coiling, slab construction, mono print, resist, stencil, image transfer, painting, and pattern.

2016-2017

Adjunct Professor, Tyler School of Art, at Temple University, Philadelphia, PA

- **Fundamentals of Ceramic Art:** Course curriculum includes lectures on process, historic ceramic traditions, architectural ceramics, and contemporary ceramic art practice. Materials and firing process included low fire and high fire clay, glazes, under-glazes, oxides, commercial glazes, electric and gas firings. Techniques include pinching, coiling, slab construction, mono print, resist, stencil, image transfer, painting, and pattern.
- **Print and Imprint:** Curriculum investigates technical methods to apply images to ceramic, with content organized by the phases of material: under the surface, in the surface, and on the surface. The corresponding lectures address design, planning, and lay out strategies. The subject matter engages students to invest in thoughtful research that continues to develop an in-depth and focused investigation in ceramic art by identifying and using subject matter and forms of personal interest. Projects are designed to further students' conceptual development and contextual understanding.

2016

Special Instructor, University of Northern Iowa, Cedar Falls, IA

- **Sabbatical Replacement for JoAnn Schnabel**, full-time course responsibility
- **Fundamentals of Ceramic Art:** Curriculum includes gas and electric kiln firing, glaze formulation and application, low fire and high fire surfaces, wheelwork, hand building, press molds and pottery wheel.
- **Intermediate Ceramics:** Students continue to develop an in-depth and focused investigation in ceramic art, identifying and using subject matter and forms of personal interest. Projects are designed to further students' conceptual development and contextual understanding.
- **Advance Ceramics: Thesis and Senior Studio - Presentation & Exhibition:** Seniors are guided through a more self-directed approach. Curriculum includes concept development through research and writing assignments, thesis and research presentations, and investigation into display and installation solutions at venues and spaces outside of the department.
- **Directed Study:** Individual student exploration of educational interest through faculty mentorship.

2014-2015

Instructor, Office for the Arts at Harvard, Harvard University, Allston and Cambridge, MA

- Clay as Canvas: Curriculum investigates hand building methods, the production of molds, monotype printing for ceramic, painting, drawing, glaze and firing methods.
 - Directed Study Capstone: Individual student exploration and construction of sustainable ceramic 3D printers with soft paste ceramic additive manufacturing.
 - Material Practice as Research, Directed Study: Technical mold construction, historic use and application of specific ceramic materials, clay formulation, firing tests, porosity and evaporative imaging. With presentation and formal evaluation of working model.
- 2014 **Instructor**, Archie Bray Foundation for the Ceramic Arts, Helena, MT
- Fundamentals of Ceramic Art: Course curriculum includes lectures on process, historic ceramic traditions, architectural ceramics, and contemporary ceramic art practice. Materials and firing process included low fire clay, glazes, under-glazes and electric firings. Techniques include pinching, coiling, slab construction, mono print, resist, stencil, image transfer, painting, and pattern.
- 2013-2014 **Instructor**, Armory Art Center, West Palm Beach, FL
- Fundamentals of Ceramic as Canvas: Curriculum investigates hand building methods, the production of molds, monotype printing for ceramic, painting, drawing, and glaze and firing methods.
- 2012-2013 **Instructor**, Red Star Studios, Kansas City, MO
- Fundamentals of the Pottery wheel and Ceramic Art: Curriculum investigated the pottery wheel as tool focusing on technical proficiency and skill building exercises. Firing methods, and art historic vessels are addressed in final research and replication project.
- 2011-2013 **Lecturer**, The Kansas City Art Institute, Kansas City, MO
- Mold and Monoprint: Curriculum investigates technical construction of multiple piece molds, image transfer for ceramic surfaces, and design aspects of the intersection between image and object.
 - Form and Figure the body as Canvas: Mold making techniques for capturing the human form through the use of alternative mold making materials, Alginate, rubber, silicone, plaster, and clay. Issues of the body in contemporary art will be studied through examples at local galleries and/or through library and Internet research.
- 2010-2011 **Adjunct Professor**, Rockhurst University, Kansas City, MO
