

ARTIST'S STATEMENT/Tamara Wasserman

I am a painter, a maker and a performance artist

I am fascinated by that place where an idea touches the matter and by the back and forth between them.

My ideas come from daily walks, dreams, places, moods, old or new stories, lives of objects and plants, and from the need to dance and sing (our physicality)

My matter or materials are:

new or reclaimed canvas, paper, wood, transparent fabric

I paint using oils, acrylic, dry media, and I collage

My work results in:

Wall collages, performance pieces, paintings

I am strongly inspired by Remedios Varo and by the ever-young spirit of Ancient Greece, and I learn (or steal) from everybody.
