

Whee Teck's Artist Statement

As a Singaporean artist, I've been drawn to a variety of mediums, but watercolour holds a special place in my heart. My paintings often feature vibrant landscapes and floral subjects, bursting with bright colours. I believe that anyone can learn to draw and paint, regardless of their perceived artistic ability. It's a journey that began for me in 2011, and I've been continually surprised by my own growth.

My artistic process is centered around observation, technique, and simplicity. I start by carefully observing my subject, then use a variety of techniques to bring my vision to life. Ultimately, I strive for a sense of simplicity in each piece. Inspired by the ultimate Creator, I find deep inspiration in the beauty of flowers.

After spending over 20 years in the corporate world, I took a break in 2012 to focus on meditation, family, and my passion for art. My first exhibition followed shortly after, and I've continued to share my work with the world.

Now, I'm excited to give back to the IT industry by offering soft-skills training. As an educator, I believe in the power of creativity and self-expression. I'm committed to helping IT professionals develop their skills and unlock their full potential.
