

Awarded, Published and Internationally Exhibited photographer:

Born in Paris, raised in Tehran and Boston, with a little over 2 years of dormancy in Lisbon, Armineh is a photographer now based in Los Angeles, capturing moments since 2009. She is one of the early members of the iPhoneography movement. She has had no professional training and is self-taught however her vision has been the driving force behind her creations. Her weapons of choice are her iPhone 7 Plus, her Sony ILCE-5000 camera and Minolta film camera. She dreams of working with a Rolleiflex, a Hasselblad 553 ELX, a Leica SL (Typ 601) Mirrorless camera, a Leica M6 and a Sony a99 II someday! For the time being, photography is a hobby.

Artist Statement: My photographs are not generally planned in advance, and I do not anticipate that the onlooker will share my viewpoint. However, I feel that if my photograph leaves an image on the viewer's mind, something has been accomplished.
