Summary of Professional Experience

Noël has worked in the architectural field for over 25 years in the US, Canada, and on numerous international projects. He is an architect, artist, and arts project manager. He is a registered architect in New York State, is LEED certified, and resides in Pittsburgh with his family. Noël views that his living in different countries and travelling extensively has exposed him to a diversity of architecture, development projects and art that has been a tremendous benefit to all of his endeavors.

As an architect, project manager and artist who has worked in the architectural and development fields, Noël can function in these roles exclusively or by combining the experiences of each to the success of projects, teams and clients.

With his architectural design and professional background to manage projects, he brings unique value added skills to any team where liaising between clients, community groups, project consultants and owner becomes paramount.

Design Architect and Project Manager

The Design Alliance Architects, Pittsburgh, PA - Project Manager and Project Architect

2005 to 2009

- Bettis Shipping Receiving and Warehouse Complex (SRWC), Bechtel Bettis Inc, West Mifflin, PA. Winning submission for a Design-Build competition project of a classified warehouse/storage facility on the Bechtel Bettis campus in West Mifflin. This 60,000 s.f. complex, with a construction value of \$4,000,000, consists of the primary shipping, receiving and warehouse storage functions and supporting administrative offices with mail sorting facilities and staff lunch and locker rooms.
- Bettis A4 Office Building, Bechtel Bettis Inc, West Mifflin, PA. Winning submission for a Design-Build competition project of an office building, with classified functions, on the Bechtel Bettis campus in West Mifflin. This 18,000 s.f. building, with a construction value of \$2,700,000, consists of administrative offices for both Bechtel Bettis and US government departments with their supporting functions. Both Bettis projects were submitted and completed using Revit. Construction of both facilities was completed in October 2009.
- Watson Institute Education Center, Sewickley, West Mifflin, PA. Architectural design of a 7,400 s.f., addition to be integrated to the existing education center for children with autism. Design consisted of four additional classrooms, associated handicapped washrooms, support offices for teachers, administrative offices and meeting room. A code variance hearing and presentation to township's variance board for variance was also conducted. Project was completed under a Construction Manager at Risk contract - on time for the start of the Fall 2009 school year and on budget at \$3,200,000.
- Engineering Technology Building, Fairmont State University, Fairmont, WV. Architectural design and department program re-organization for a 40,000 s.f. addition to an existing engineering technology annex. Project was completed in early 2008 for an estimated construction value of \$12,500,000. The Master Builders' Association of Western Pennsylvania chose this project as a Building Excellence Award Finalist for “Best New Construction Over \$10 Million.”
- Wellness Center, Waynesburg University, Waynesburg, PA. Master Plan for university's lower campus to incorporate Aquatic and Wellness centers. Initial phase was to complete the architectural design for an 18,000 s.f. Wellness Center with an estimated construction value of \$3,800,000. Wellness Center was completed and opened for the Fall 2008 semester.
- McKenna Hall Building Addition, University of Pittsburgh Greensburg Campus, Greensburg, PA.
- Athletic Facility Addition, University of Pittsburgh Greensburg Campus, Greensburg, PA.
- Performing Arts Center and McAnulty College Expansion, Duquesne University, Pittsburgh, PA.
- Engineering Sciences Building, West Virginia University, Morgantown, WV.
- Nutrition & Health Education Center, West Virginia State University, Institute, WV.

Baker and Associates, Moon Township, PA - Project Manager and Senior Architect

2001 to 2004

- Robinson Township Centre Intermodal Facility, Robinson Township, PA. Port Authority Project. Managed project through master planning, Township hearings, schematic design to completion of construction documentation and specification package. Project had a substantial civil/landscaping component to complete for two Townships as well as the Port Authority program requirements. Construction documents also consisted of pricing project in three different construction building types, namely, all steel, all poured concrete and all precast concrete packages. Construction estimates at each design phase were conducted and presented to client to monitor project costs and also undertaken for final three different construction building types. Project was halted but facility remains as a possible future project for the Port Authority to complete. Estimated 2004 construction value of \$11,000,000.
- Greyhound Bus Lines, Temporary Pittsburgh Terminal, Pittsburgh, PA.
- Concourse “A” Build-Out, Port Columbus International Airport, Columbus, OH.

Principal, Design Architect and Project Manager

Burt Hill Kosar Rittelmann Associates, Pittsburgh, PA - Project Manager and Project Architect 1998 to 2001

- The Village of Pine Office Development, Township of Pine, Allegheny County, PA. Corporate Offices. Design of Bank Pittsburgh 23,000 s.f. head offices valued at \$4,000,000 construction cost. Roles included participation in township approvals process, concept design, design development, construction documentation and specification package, and construction administration. Construction estimates at each design phase were conducted and presented to client to monitor project costs.
- Fort Erie Racetrack and Casino, Fort Erie, ON, Canada. Casino Facility. Master planning, building design and interior space planning for a proposed 70,000 s.f. casino/entertainment facility valued at \$15,000,000 construction cost. Roles included client interface and representation through City's approval process and provincial Casino regulations. Project was completed through design development and put on hold.
- The East Gate Project, Penn Hills, PA. Community Centre, Commercial and Light Industrial.
- Exhibit Showcase, Regional Enterprise Tower, Pittsburgh, PA. Exhibit Showcase. Liaised with client and undertook design development into construction documents as full architectural and MEP package. Project involved renovation of existing interior retail and lobby areas, and exterior retail showcases of the former Alcoa building. Coordination with exhibits design was required to develop interior design. Project was valued at approximately \$2,000,000 with exhibits.
- Magee-Womens Hospital Parking Garage, Pittsburgh, PA. Parking Garage. Project Manager for this three-level parking garage, transforming development drawings into construction and specification package based on General Construction Manager's Guaranteed Maximum Price (GMP). Project was completed January 2002. Construction cost valued at approximately \$7,000,000.

ICOSA Project Development, Toronto, ON - Principal 1991 to 1998
