Exhibit @ Jeffrey Smith Salon, 5806 Bryant Street, Pittsburgh, Pennsylvania 15206 (412) 441-1440

The Dream Exhibit is inspired by Pablo Picasso's *Le Rêve* (The Dream) for its strong color, forms, over simplified outlines and distorted depictions. Noël has incorporated these qualities in his floral pieces for this, The Dream Exhibit.

Noël was born in Georgetown, Guyana, South America, lived in Trinidad, moved to Toronto, Canada in his early teens, and, currently lives in Pittsburgh with his family. As an artist he is self-taught and works primarily using digital techniques. He is a licensed architect that practices part time. Noël views his professional experience as an artist and architect as a continuum with inter-related characteristics.

During his years in architecture school he took up photography to examine and study architectural form, and, developed unique views and perspectives of buildings using wide-angle lenses. This led to digital photography. This transitioned into his current artistic practice where he explores the connection between traditional and digital art. He has embraced digital influences that continue to inform and direct him in his work, without foregoing traditional art methods.

Presently, Noël uses photography as one of his initial aesthetic generators - applying digital manipulation and techniques to create unique images. Noël's other aesthetic generator uses his hand sketches to develop his work into digital fine art. Both generators combine his architectural design process and software based techniques that he continues to hone into a seamless integrated method.

Noël applies his aesthetic to themed collections such as architecture, landscapes, flowers and jazz, and, produces his work printed on photographic papers, canvas, glass, acrylic and aluminum. "One of a kind" pieces are printed, hand signed and certified as original. Limited production runs are digitally signed. Work varies in size from note cards to 40 inches by 60 inches with larger pieces being developed. He is also developing a clothing line, with his floral art.

In addition to these collections, Noël also accepts commissions based on his art and architectural photography. He gladly collaborates with clients to create custom pieces in various sizes and mediums.
