

Anne Ressman Zabinski

ABOUT THE ARTIST

I have been creating art most of my life. Since I was a child, I have had this wonderful, unconventional gift of seeing words and music, emotions and days, months and numbers as having their own distinctive hues. I rely on my synesthetic abilities to create abstract art using acrylics and watercolors on canvas or paper.

ARTIST STATEMENT

I taught myself how to paint by using my synesthetic responses as my reliable signals to create my visions onto canvas. Numbers and letters, sensations and music, days and months, to me, are all associated with colors.

By using brushes, pours and palette knives, along with acrylics, I build layer upon layer of texture and color to depict the essence of what I am feeling, hearing and seeing at that moment. I am emotionally driven and my paintings represent the complexity and depth of those emotions. I hope with the intensity and energy of my paintings, I am able to touch peoples' spirit and soul.
