## Reviews

### SOUL SMART WISDOM

By Karen L. Garvey

Artwork by Diane Daversa

PUBLISHED BY INTENT, 40 PAGES, \$9.99

*Soul Smart Wisdom* (Intent) is a joyful pick-me-up for anyone needing a little uplifting, and that's most of us at some point. Author Karen L. Garvey's aphorisms push and pull you to progress, however you define it, in succinct nuggets that are not meant to be consumed and spit out, but savored for their depth.

Consider this: "Language poses limits. Practice using your heart, gestures, body language, facial language and touch to unite with others." Or how Garvey, a professional coach, pulls together the dichotomies of life in this simple yet golden reflection: "Everyone matters as an individual and we all matter together."

Culled from Garvey's previously published *The Answers*, her motivational gems are brought vividly alive by stunning artwork that bursts with color from Long Island fine artist, illustrator and designer Diane Daversa, who is clearly among her element when working from nature. Daversa's rays of sunshine beaming through treetops or reflections on bodies of water are themselves a cure for the winter blues.

Like the meditative qualities of water, Daversa's magical lakeside landscape, for example, makes ruminations like this come to life: "The reflection pool mirrors what it sees. You cannot create a new image in the reflection. Your life is a reflection as well, mirroring back in physical matter the quality of your thoughts and your beliefs. The pool can only reflect back what is there."

*Soul Smart Wisdom* is like having a sunlamp nearby when the day's skies are darkened with snow or clouds. It is available in bookshops, boutiques and at [DianeDaversa.com](http://DianeDaversa.com) and [TheAnswersUnlimited.com](http://TheAnswersUnlimited.com).
