

**MOBILE
CLAUDIA
VIVERO**

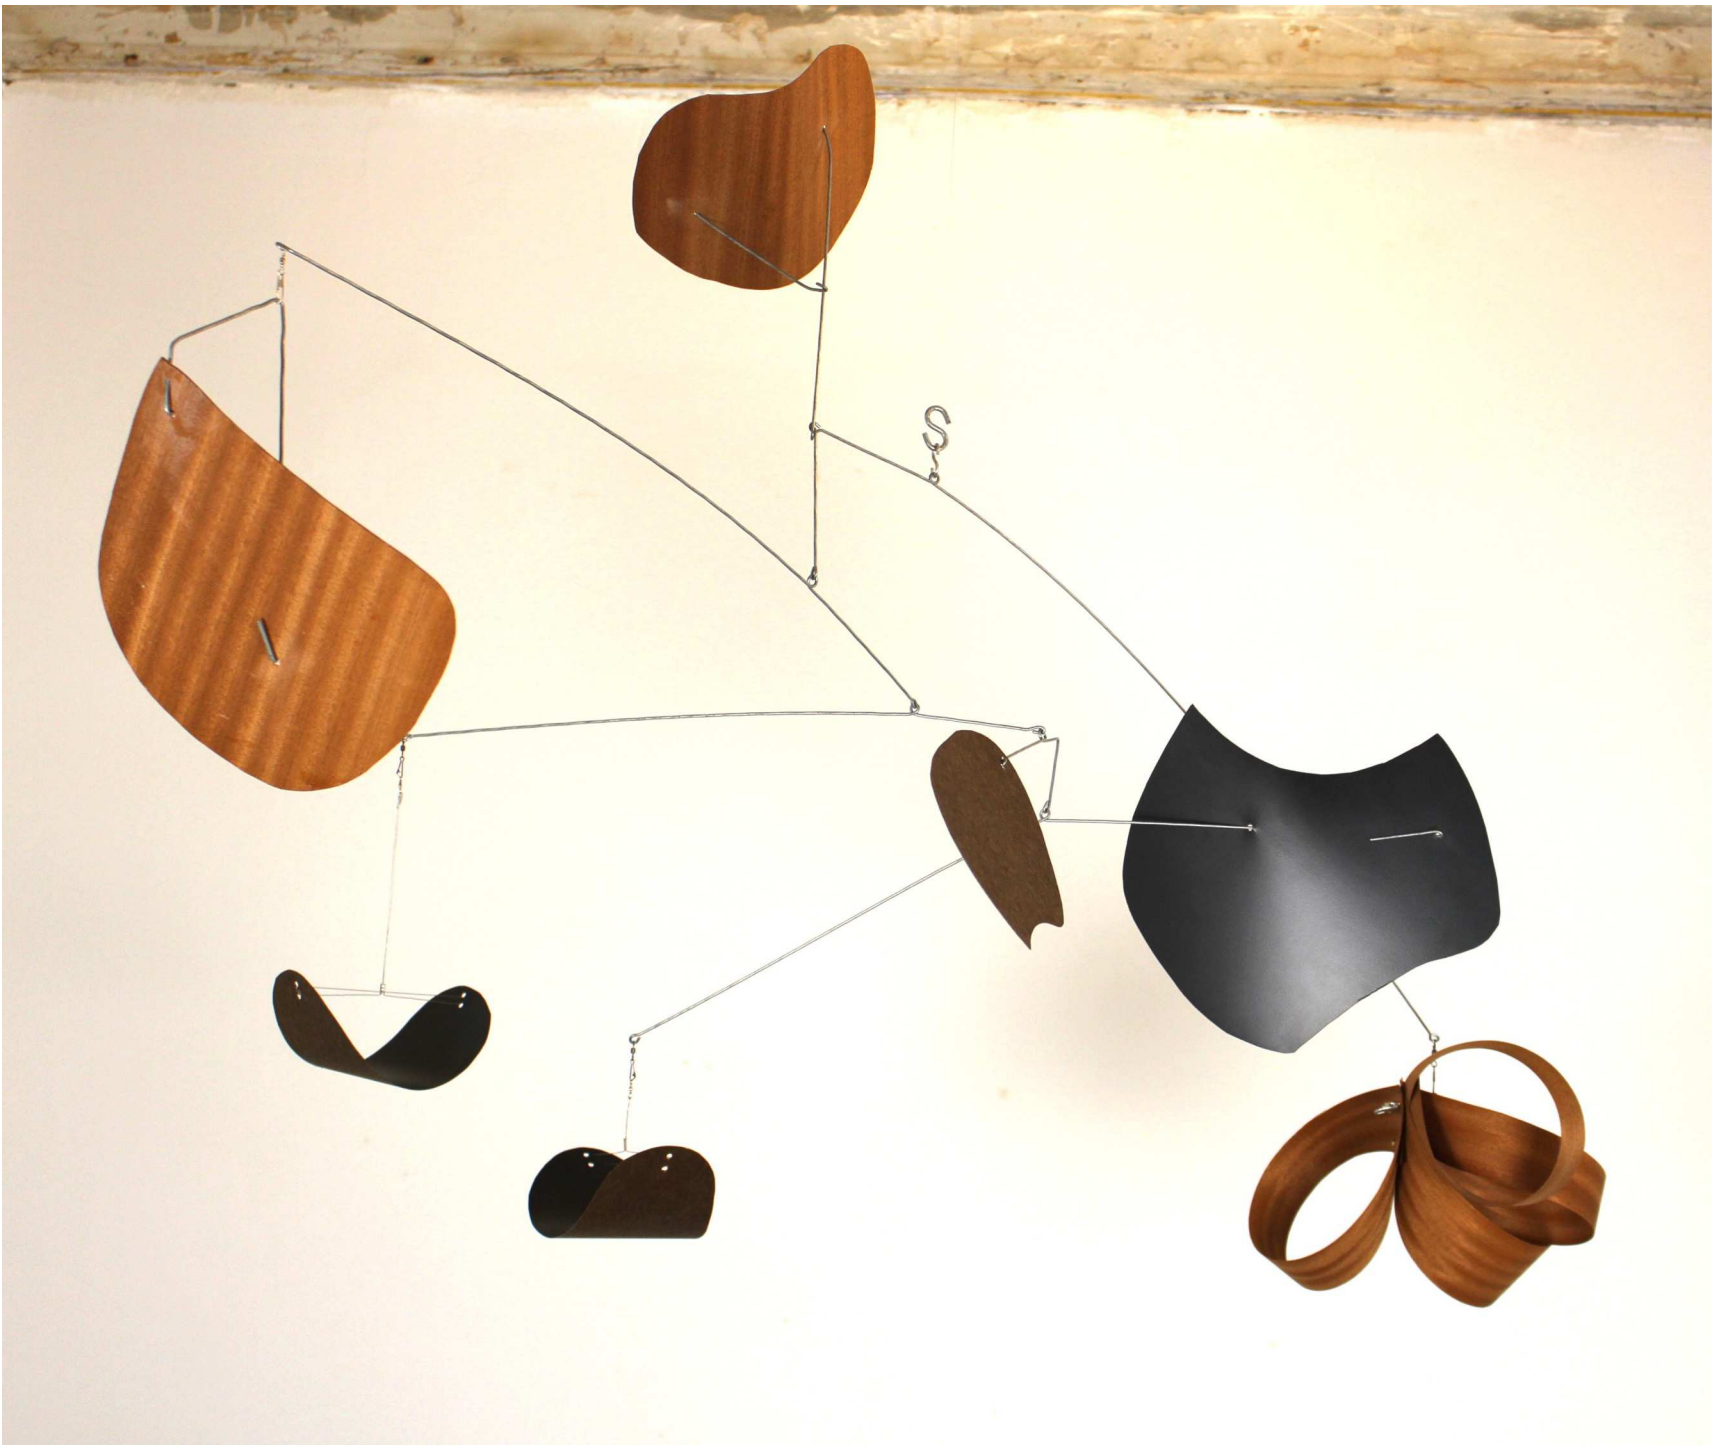

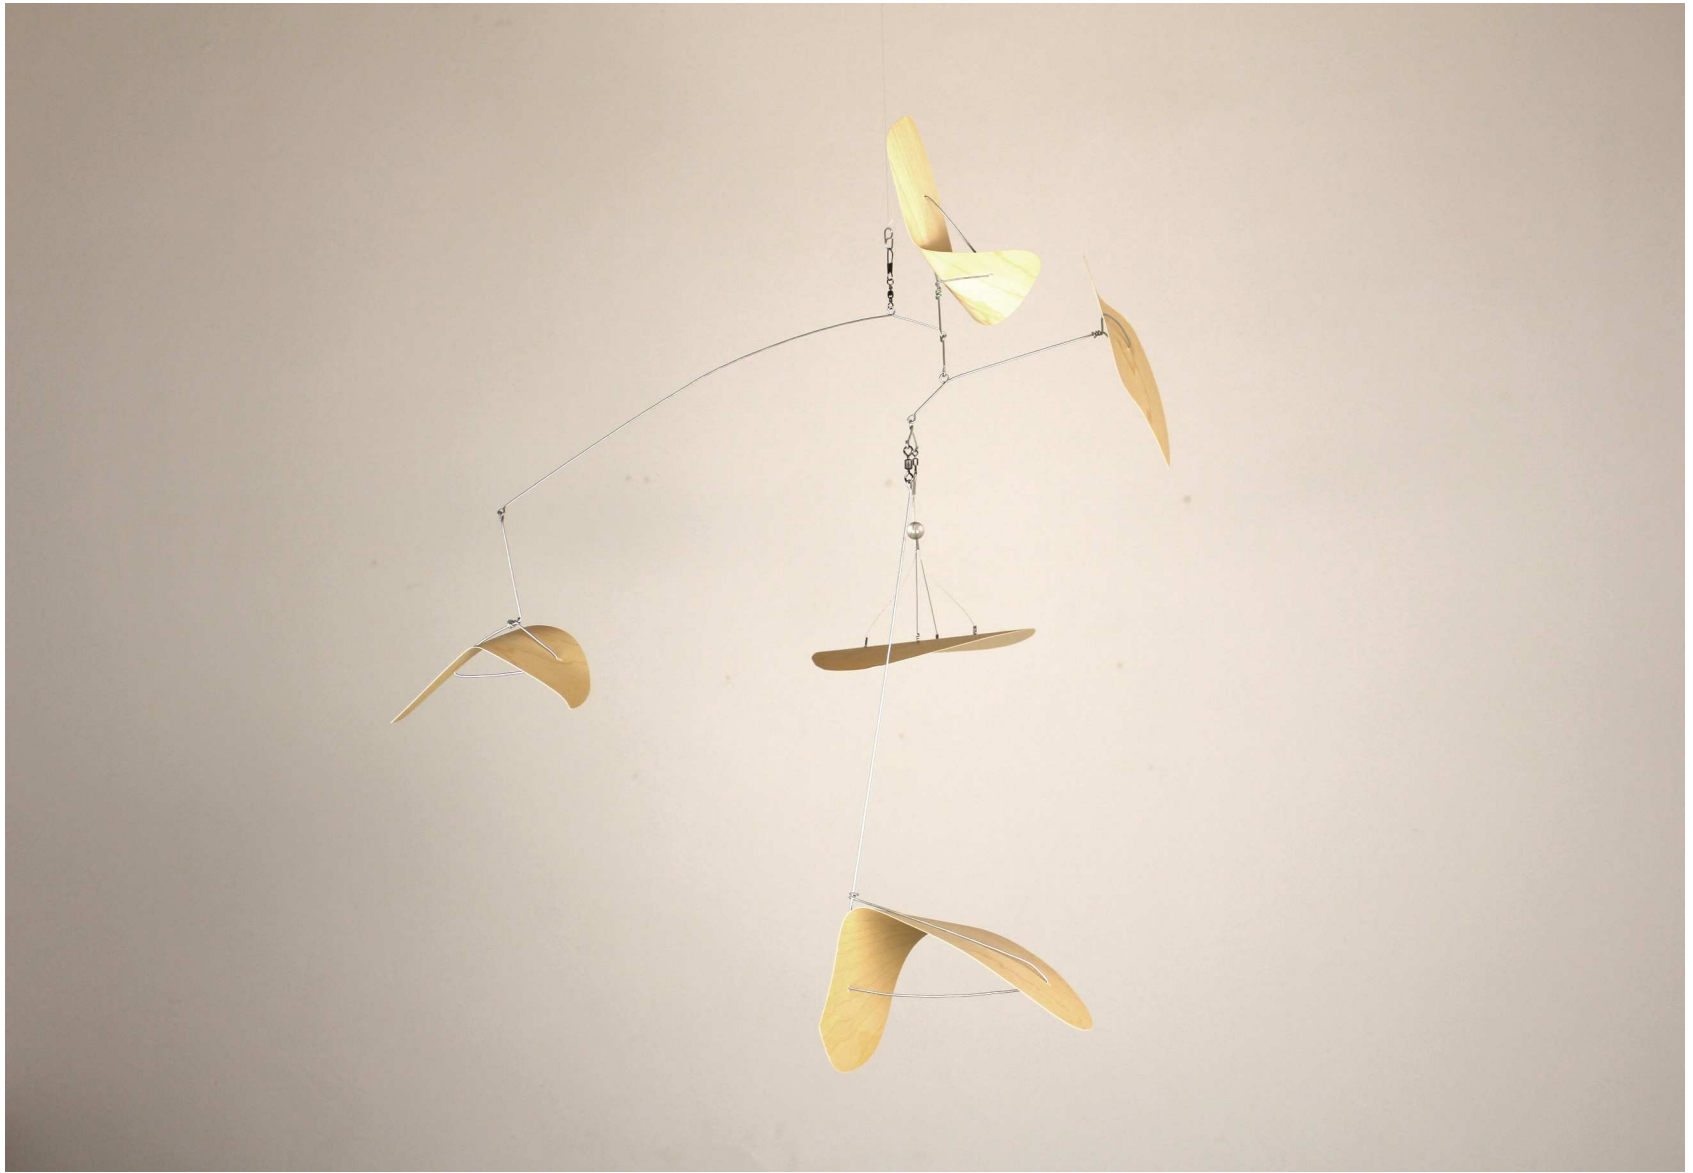

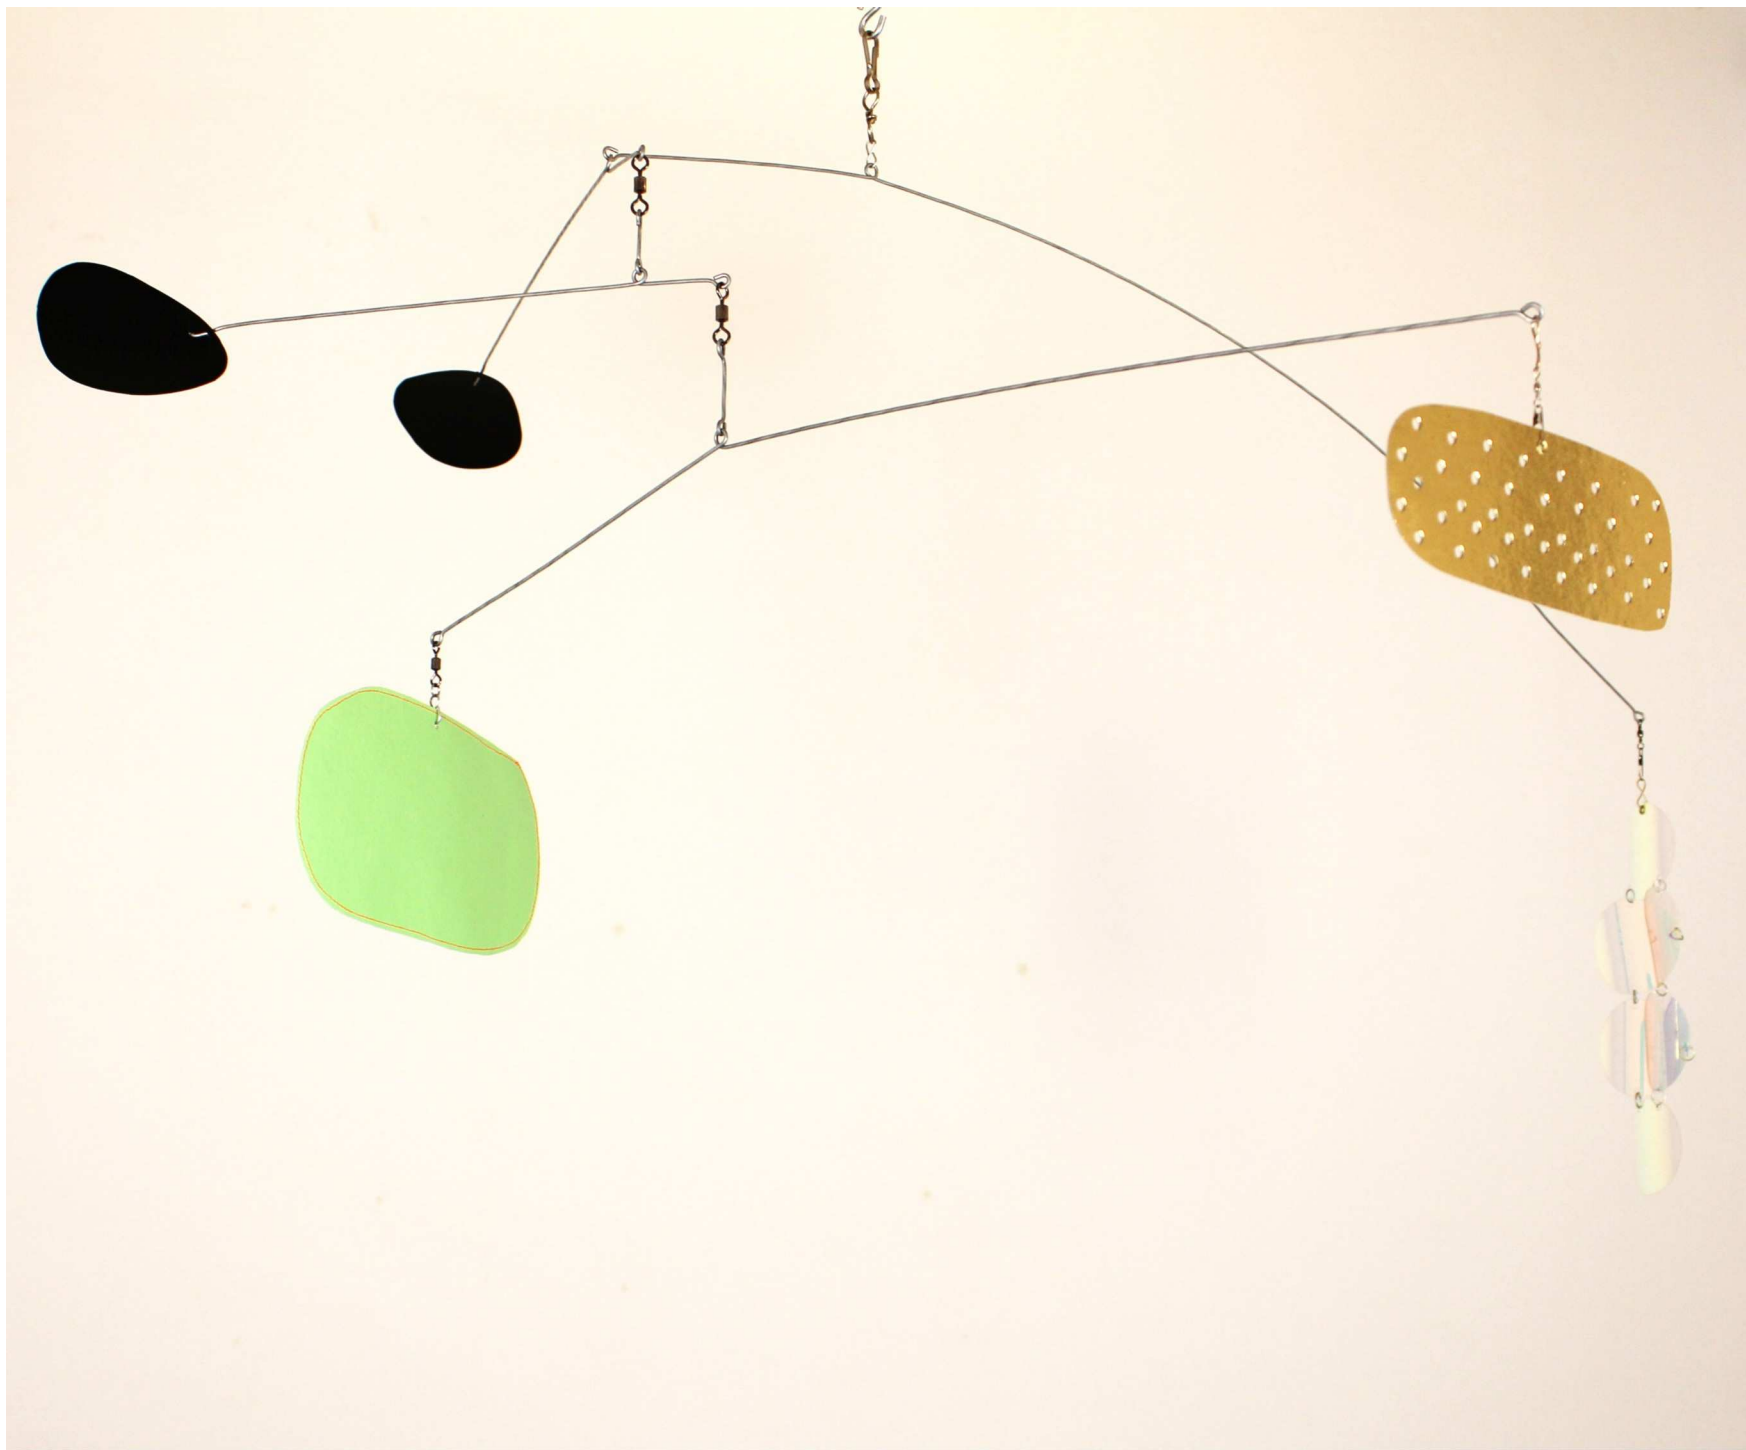

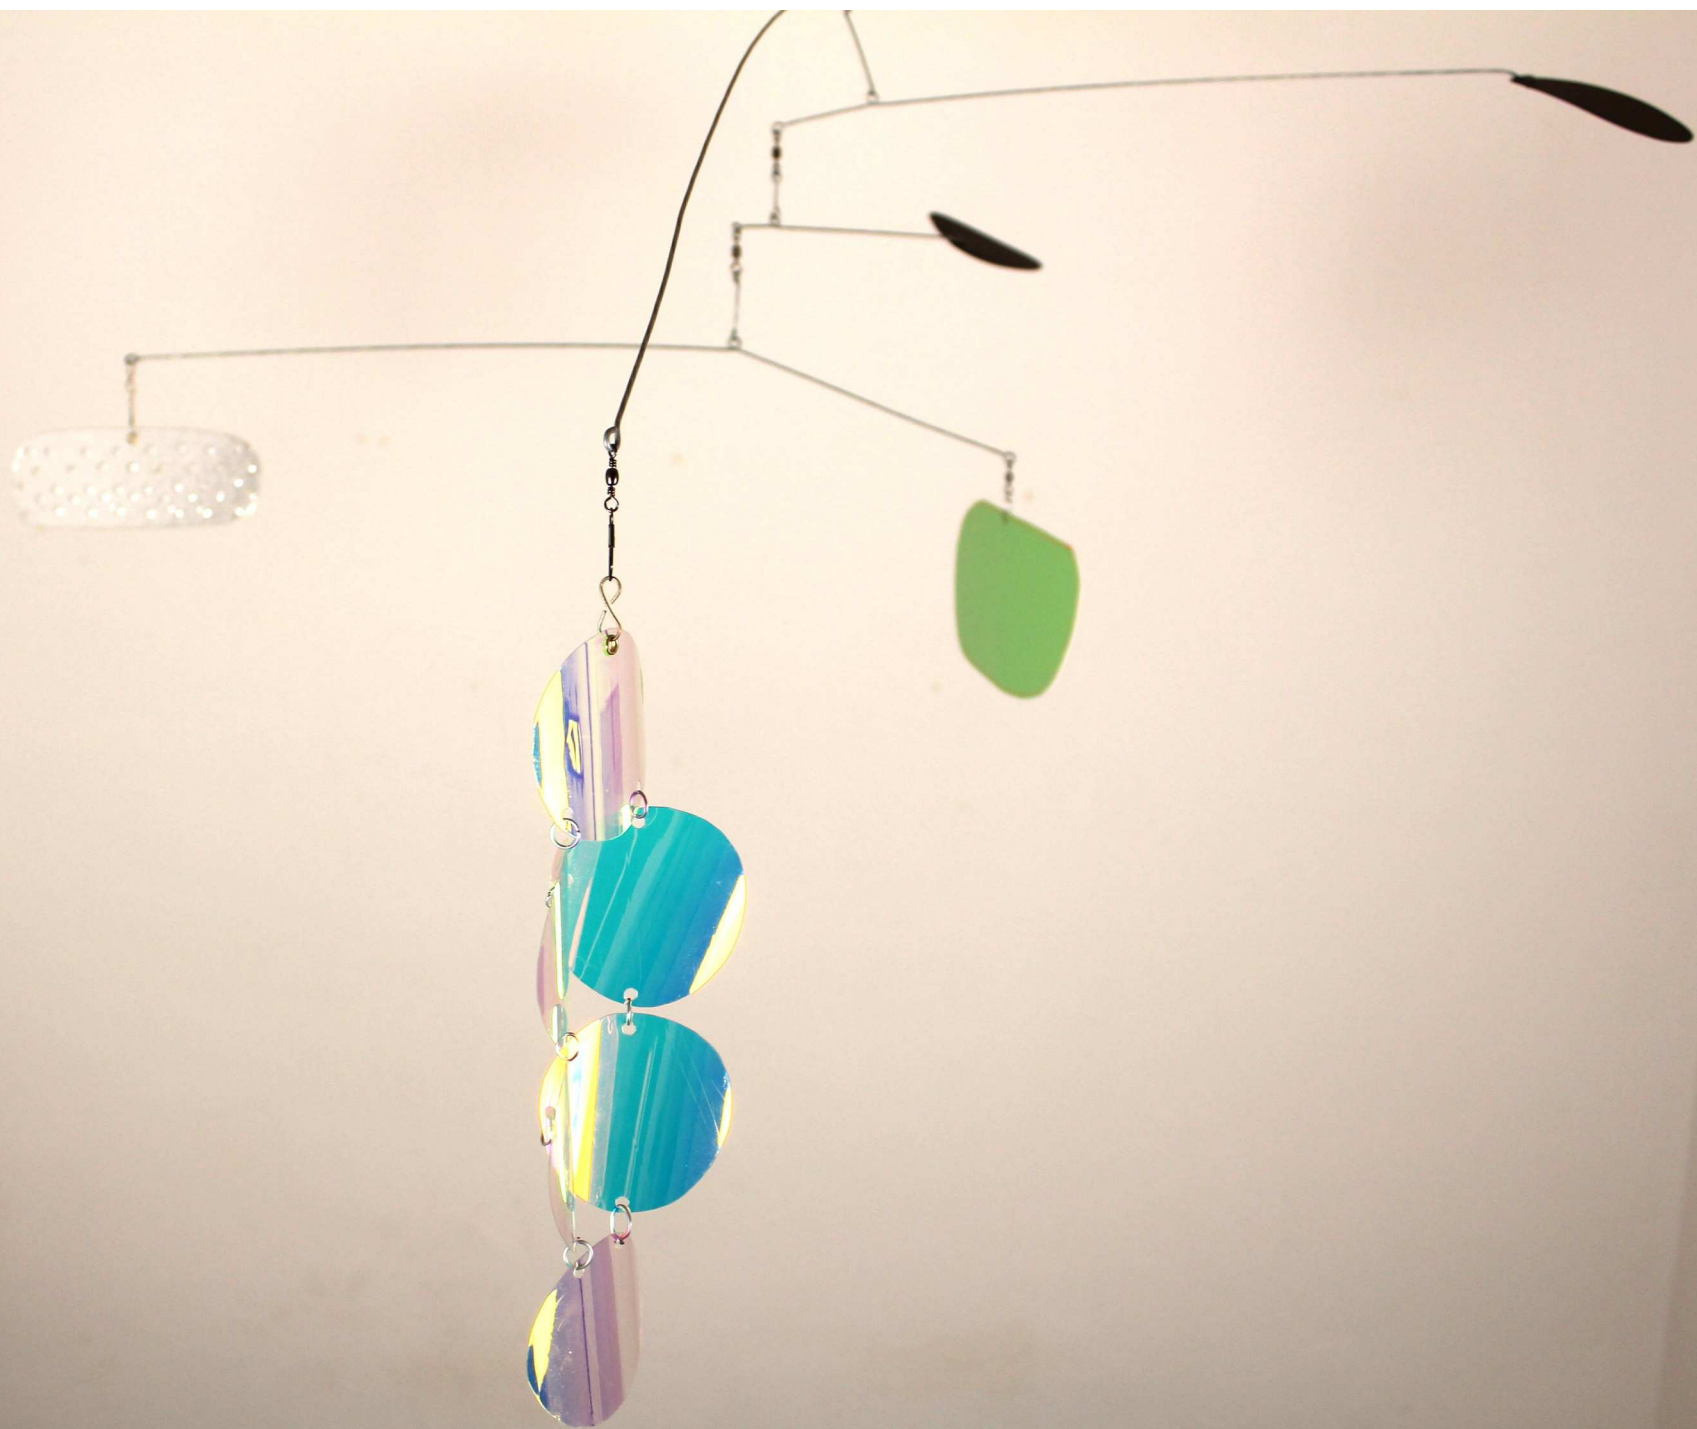

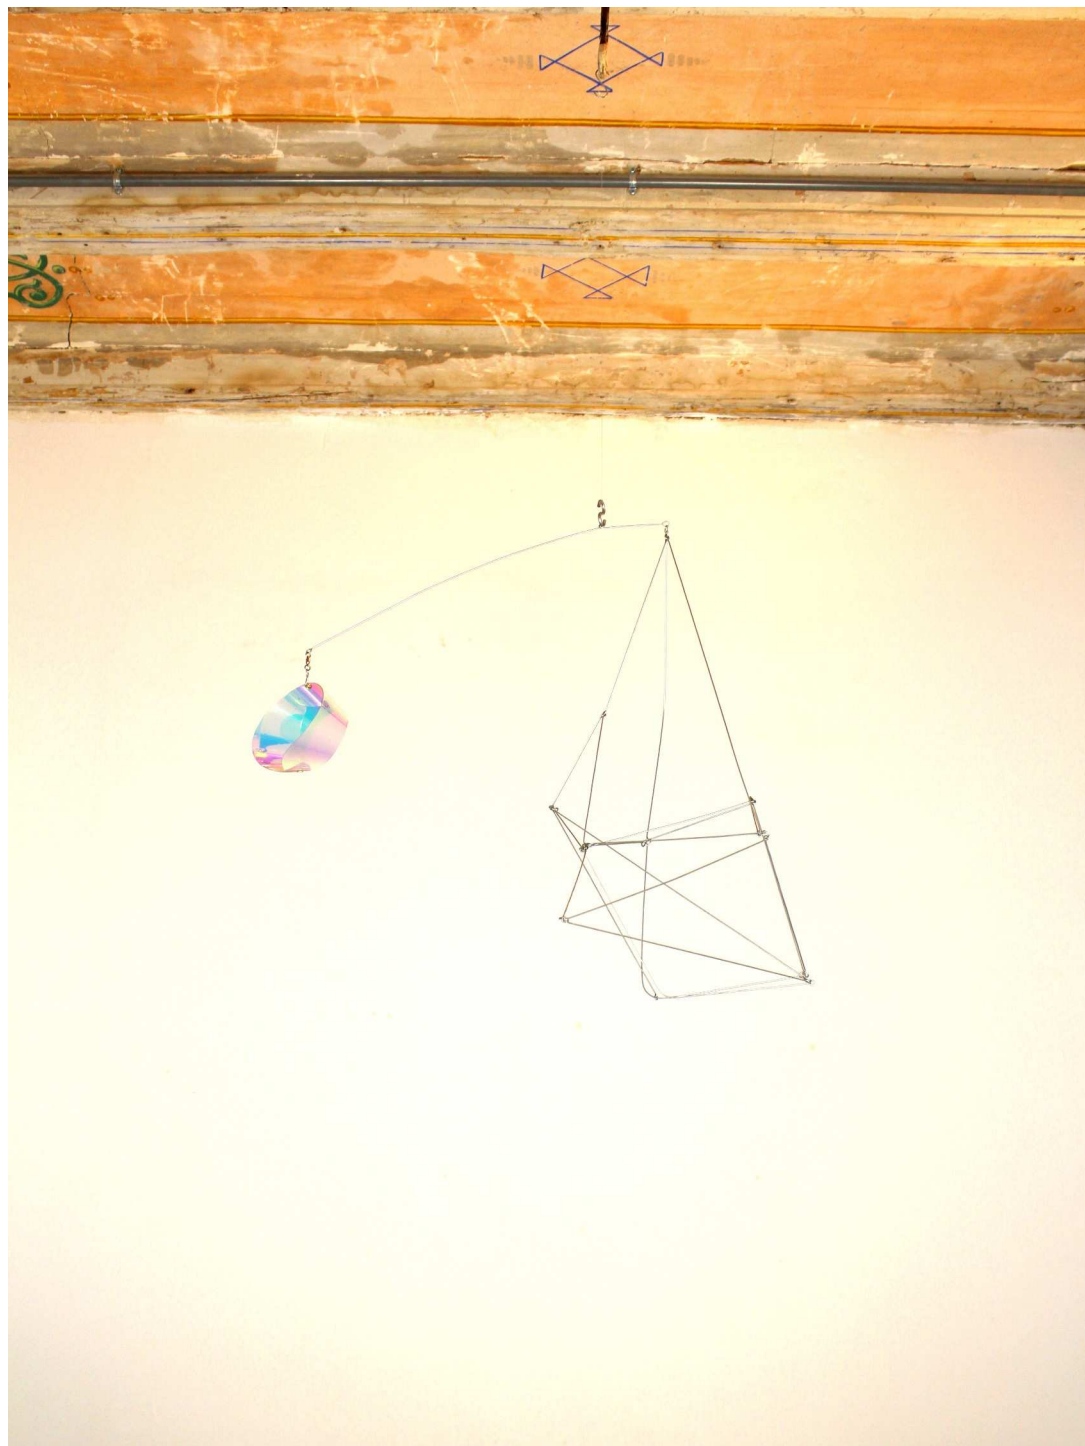

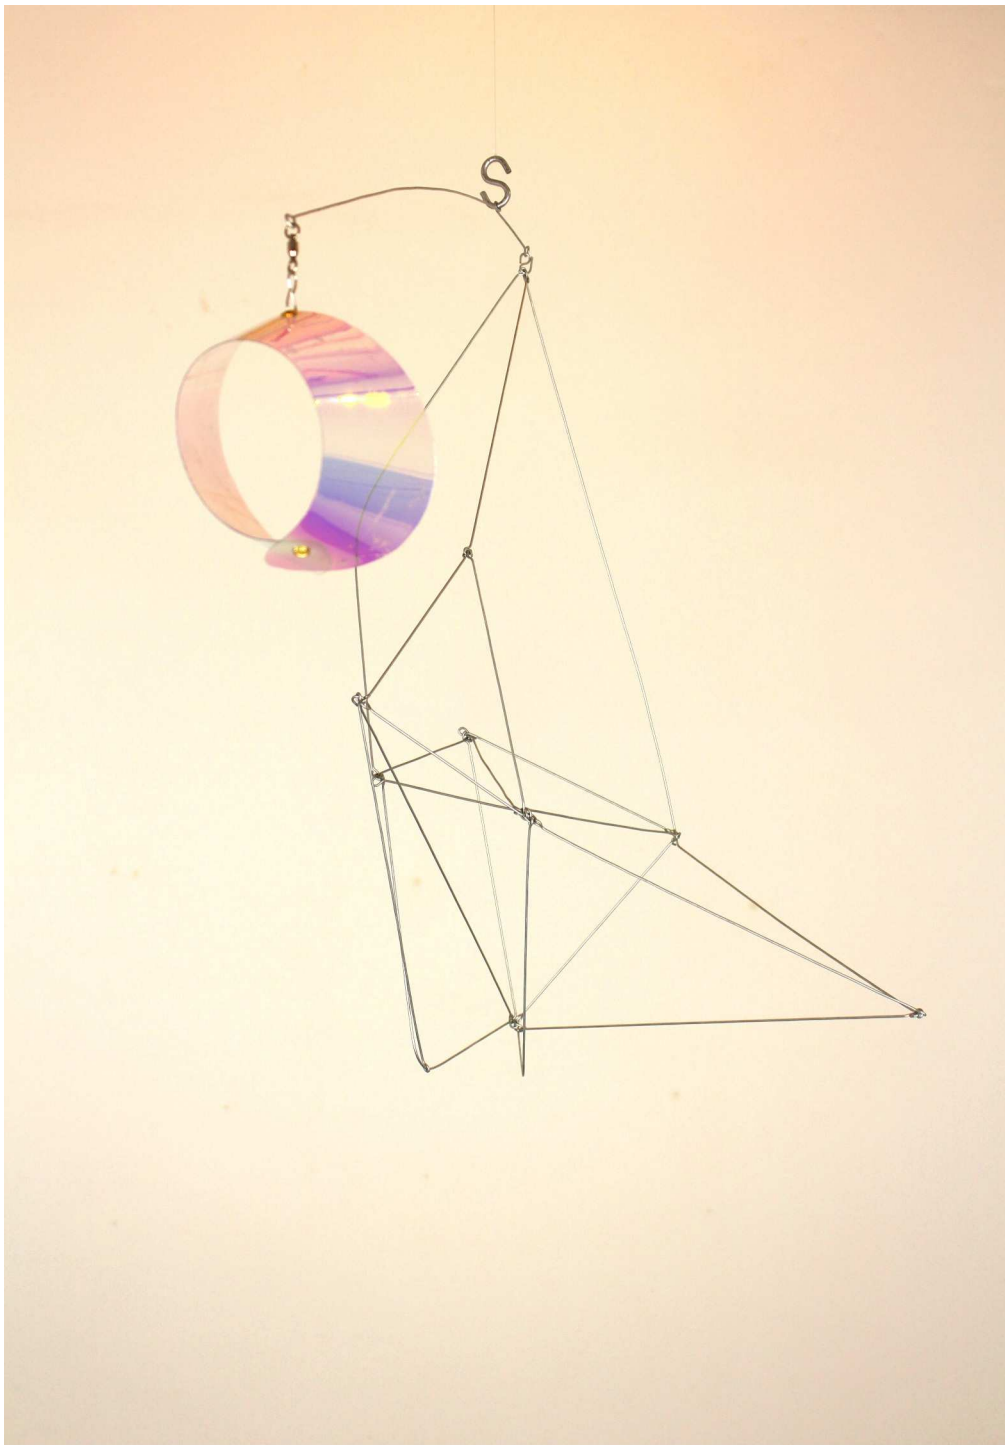

Mobile, es una serie que vengo produciendo desde el 2016 hasta ahora , 2019, aun no completada.

Los “elementos”, que se balancean, los realizo utilizando madera veneer, 3m dicroica folia, objetos que encuentro de mi interés, alambre galvanizado.

En su conjunto son formas que flotan, una constelación de elementos que invitan a la observación y la contemplación al permitirles moverse, a través del aire, a veces imperceptible mientras se balancean.

This serie is part of a mobile set made between 2016-2019 not yet completed.

The parts of these mobile are called “elements”.

This elements I build using materials that I transform, making them part

In their whole they are forms floating in a set,

a constellation of elements that invites to observation and contemplation by letting them move, sometimes imperceptible through the air as they balance.

Claudia Vivero, 2019
