

SURFACE TENSION

through May 3, 2026

THE WESTMORELAND
MUSEUM of AMERICAN ART

SURFACE TENSION

Surface Tension brings together artists affiliated with the Associated Artists of Pittsburgh and Radiant Hall whose work appears vibrant and visually seductive yet carries a sense of underlying pressure. Bright palettes and playful materials mask deeper emotional, cultural, and environmental complexities, creating a charged space where surface and substance pull against each other.

What appears coherent at first glance becomes increasingly unbalanced and dazzling.
