

Jack Curtis is a Newtown, CT resident, artist and sculptor. Jack has been involved in the arts since early childhood, eventually taking his hobby/love to a level where he is an “artist – sculptor”.

His love of the arts, graphic illustrations, both actual and abstract oil and acrylic paintings and sculptures has given him the ability to express his ideas and desires such that all can enjoy.

Jack is currently pursuing metal sculpturing, combining aspects of his interests/loves, nature and abstractural ideas.

His work combines the use of color, format, texture and design in such a way to evoke harmony and pleasure while making a subtle statement of purity and honesty.

If there is a piece you like or an idea that you would like to discuss, contact Jack.
