

As of May, 2020, the following projects are in the works:

This is a prototype of a portion of a wind spinning outside sculpture. The finished sculpture will be 84" high and the width will be 45" at its widest point.

FINISHED

This is one half of a 20-gauge expanded metal seahorse sculpture. The finished piece will be brazed and mounted on either a metal or wood base. The height will be approximately 32". The finish may be heat colored.
