

JOYCE NORDEN

Jnorden9@gmail.com 610-585-0786

A famous author once said that the place you were born is the DNA of your creative work. Growing up in New England with its brilliant reds, oranges, yellows and blue, and the soaring, curving lines of tree branches continues to influence the way I paint and experience the world. My use of intense colors and multiple glazes allow me to explore the complex layers of life and the surprises that occur at its edges.
