

Ruth Vonderberg
ruth@ruthvonderberg.com

I worked professionally by education and practice as a graphic designer using computer programs for that purpose. On retirement in 2007, I very much desired to bring physical materials into the creative process. Using my experience in applied art, I began exploring fine art. My first exhibition was in 2009 and since then I have continued to grow as an artist while continuing my personal pursuit of artistic diversity.
