

FIGURAS

Jorge Rodríguez

17 April – 17 May 2019

Ona Galeria
Oficios 307 b
Havana, Cuba

Ona Galeria is pleased to present ***Figures – Jorge Rodríguez***, the first solo exhibition by the artist. In his most recent works he explores and expands the traditional definition of the figure to include all meanings of the term, creating a new global concept from it. The results are works in a range of glowing, iridescent colours, a series where the public is observed by old-times photographers or paparazzi, and pictures where the drawing lines compete with the pigments of a bright palette.
