

LS PIKE FINE ART

My mixed media art work focuses on the diversity and aesthetics of people, places and objects through the intersection of portraiture, artifacts and natural patterns. Various textures, colors and patterns describe the complex contextual, and sometimes, emotional, state of these interactions.

Mixed Mood - Blue

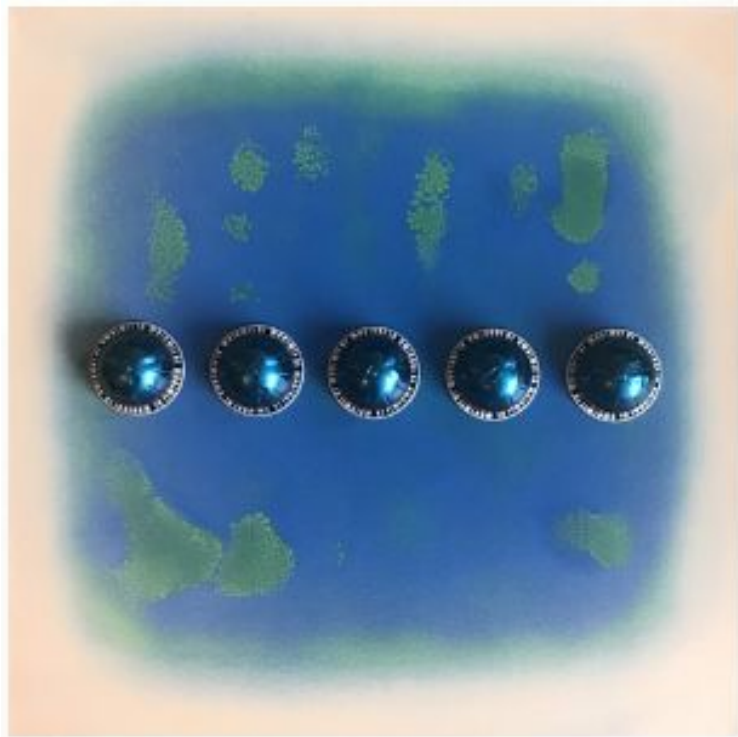

LS PIKE FINE ART

My Mixed Mood Pod Series is an aesthetic exploration of color, texture, patterns and pre-used coffee pods. The coffee pods were donated by the local community and are represented by different colors and patterns depending on the coffee flavor. These pods would normally be either thrown away or sent back to the company for recycling. By re-using the pods as pieces of art work, we minimize the impact to the environment, while also enjoying the aesthetics of the work.
