Dear Hiring Manager,

In my pursuit of new creative endeavors, I was excited to find the Multimedia Designer opportunity with Some Company. As a progressive professional with multimedia presentation experience, I believe that I can bring valuable contributions to your team. My attached resume outlines all that I could offer your organization. Here's the overview: I am skilled in many Adobe Creative Suite programs and have primarily worked with said programs for around three years now. In addition, I have hands-on camera experience with the ability to both shoot and edit photos and videos. I also have some essential experience in building small websites and can create working mockups.

I believe that I have the characteristics that Some Company needs and deserves. Identifying innovative approaches and improved solutions to business challenges motivates and drives me. Observation, inspiration, and determination are my foundation for success. My philosophy is that introducing fresh perspectives and new techniques allow businesses to evolve and grow. Like Some Company, my goal is to remain on the cutting-edge of advancements.

Formerly in my Library Technician role, my successes have stemmed from essential skills, including designing graphics and scheduling. In addition, I have enhanced my collaboration abilities and cultivated a reputation as a significant contributor through time management and problem-solving. I am a collaborative team player who always searches for opportunities to impart valuable insights. With these qualities, I can facilitate positive change and impact outcomes.

Please review my attached resume for a greater presentation of my background and qualifications. I am eager to speak with you and greatly appreciate your consideration.

Sincerely,

Destini Klippi
