The July 3rd reception will be a flashy opening honoring the 22 depicted animals and the 62 humans who drew them! Mark the opening date, Friday, July 3rd 6-9pm – an opening not to be missed! An assortment of species will be a part of the festivities as well as some special guests. Ecoacoustician, Andrea Lynn has prepared a sound piece, ***Voices Beneath the Waves***, which will play in the gallery using sounds harvested from the sea. Dancers, Aowyn Leiper, Kaitlin Nelson and Karmen Samione will respond to the visual and sound art with an original movement piece. Agroforestry Northwest's **Food Forest Ambassador** is part of the exhibiton, helping to tie the environmental pieces together. Bait bites will be served as we celebrate the Salish Sea and spark conversation and care for the ecosystem.
